Cookies and measurement

Effective from 20 November 2026.

> English translation provided for convenience. The Czech version is legally binding.

The website stores in your browser only what it needs to work. Google Analytics starts only if you give your consent. Basic visitor statistics run without cookies on our web hosting (see below).

Change measurement consent

Necessary

Name	Purpose	Duration
`ito_s`	signing in to the account and form protection	until the browser is closed
`souhlas-a-mereni.volba.v1`	your measurement choice (browser storage)	12 months
Cloudflare Turnstile	checking that a form is not sent by a robot	for the duration of the check

Visitor measurement (only with consent)

Name	Purpose	Duration
`_ga`, `_ga_83619GK7C4`	Google Analytics: number of visits and which pages help	up to 2 years

Visitor statistics (without cookies)

To know which pages help, we use our own statistics running directly on our web hosting. They store nothing on your device and need no consent. A one-way fingerprint is created from the IP address (shortened by its last part) and browser details, and it changes every day; the IP address itself is not stored. Details are in the privacy policy.

The website uses no advertising cookies. The Stripe payment gateway uses its own cookies only on its secure page during payment.
